

## Clark Forklift Parts

Clark Forklift Part - At present, there are at least 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in use in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive makes of forklifts, with components covering more than 120,000 specific components for all of its automated equipment. Your local Clark Seller is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark has a extraordinary Parts Supply team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Worldwide, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every forklift.

Clark's relentless goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the internationally approved quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a dominant market position.

Clark has preferred the very economical and beneficial system of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most efficient approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the proficiency and excellence of their products while minimizing expenses. The contemporary value engineering agenda combines progressive product growth and delivers improved client support and service within the industry.
