

Meritor Part

Meritor Part - Meritor is a leading international dealer which is proudly established on a 100 year custom of quality and service. They specialize in several integrated systems, modules and components to original machine makers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the international operations. The company values all of their customers and wishes to guarantee their success while anticipating their diverse needs. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

By only hiring future focused people, Meritor strongly thinks these top-caliber individuals will be able to rapidly adapt to changing environments and demonstrate the commitment and performance considered necessary to reach results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all of their workers various opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include drivelines, axles, braking and suspension systems used for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of all their global engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the globe in 19 nations and in 5 different continents.

They have their supplier network that is specially located to be able to support the growth of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business methods and apply lean methods.
