

TCM Forklift Part

TCM Forklift Part - In the global trade of material handling, lift trucks play an important part for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the United States, forklifts gained popularity after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread internationally.

In nineteen forty nine, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the company is simply referred to as TCM Corporation. Through the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes many models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products recognized and used all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
